RE: Commissioner's Monthly Report to the Policing Authority

Dear Helen,

I am pleased to provide the Commissioner's monthly report, outlining the key aspects of the administration and operation of An Garda Síochána for the month of July 2024, in accordance with Section 41A of the Garda Síochána Act, 2005, as amended.

Yours sincerely,

**THELMA WATTERS
CHIEF SUPERINTENDENT
COMMISSIONER'S OFFICE**

5th September 2024

Message from the Commissioner

This month saw unacceptable attacks take place on Gardaí; criminal damage and other offences of serious public disorder occur outside a premises on the Malahide Road and surrounding areas of Dublin 17. In what were very difficult circumstances, Gardaí acted courageously and professionally over the course of a prolonged period on Monday 15 July 2024 and again during other flash points later that week. Personnel were subjected to unacceptable levels of verbal and physical abuse, which escalated into rocks, fireworks and other objects being launched towards them.

I would like to commend and thank all Gardaí who worked diligently to keep people safe and bring offenders before the courts. By the end of July 2024 more than 30 arrests were made in relation to the disorder in Coolock.

In also emphasising my utter condemnation of the attacks and violence directed towards Gardaí dealing with these matters on scene, I also want to acknowledge that threats and disparaging comments were made against Gardaí on social media. Such actions are equally intolerable and will be subject to investigation and reported to the Director of Public Prosecutions, where appropriate.

Further to this activity, Gardaí right around the country were involved in a number of positive policing activities including three separate operations targeting organised criminal activity in Louth, the Southern and Eastern regions; and in Galway.

As well as these operations, this month also yielded significant drug seizures - most notably, the seizure of more than €9,500,000 worth of drugs, together with €1,000,000 in cash on 19 July 2024 as part of an operation in North County Dublin. Meanwhile earlier in the month over €6.8m of suspected cannabis was seized as part of a collaborative operation by GNDOCB and Revenue in Dublin on 5 July 2024.

Further progress was made this month in respect of the Garda Operating Model, with the DMR North Division becoming the fifteenth Garda Division to commence the four Functional Area structures (Business Services, Performance Assurance, Crime and Community Engagement) on 14 July 2024. Progress continues in the remaining six divisions in respect of the implementation of the Business Services Functional Area and Performance Assurance Functional Area.

Regrettably, July 2024 was another devastating month on our country's roads with a further 21 fatalities recorded this month, bringing the total road deaths to 114 by the end of July 2024. A number of road safety media briefings took place during the month urging motorists to drive safely, including a collaborative press briefing with Assistant Commissioner Paula Hilman; the Road Safety Authority and Minister of State James Lawless, T.D. on 31 July 2024 in advance of the August Bank Holiday weekend.

Any fatality on our roads is one too many, and I want to extend my sympathies to all those tragically bereaved this month. We will continue our policing efforts aimed at promoting safer driver behaviour, and continue to urge motorists to reflect on their actions behind the wheel.

J A Harris
Commissioner

- 313 personnel attended Standard Counselling

Health and Safety

33 Occupational Injuries were recorded for July 2024 (as of 01/08/24)

The number of National Incident Management System (NIMS) incidents created in July 2024 is 121. Fire Warden Training was carried out by the Health and Safety Unit in July 2024. 12 personnel were trained as Fire Wardens in the Cork Division.

3. Information and Communications Technology

As per Policing Plan target E5.1, ICT continues to deliver the key projects in the 2024 roadmap in line and in support of An Garda Síochána strategic goals and our Data and Technology Vision of 'Information-Led Policing'. ICT also continue to support the operational needs of the organisation in the office, on the frontline and working remotely by enabling An Garda Síochána personnel access Garda information systems in a secure manner where needed, particularly in the use of digital collaboration tools for desktop and mobile.

Human Resource Information System (HRIS)

The project from an ICT perspective involves the procurement of a Human Capital Management (HCM) system. This in turn is part of a wider modernisation of HR business processes as part of the HR Information System (HRIS). Consultation with the wider Garda Organisation and relevant stakeholders is ongoing. There have been 49 workshops held to date as part of the requirements gathering phase and preparation of an RFT document will commence at the end of September 2024.

GardaSAFE – The new Garda Computer Aided Dispatch (CAD) System:

GardaSAFE is now live across the entire organisation and based on feedback, a new 'Police Unit History Report' has been added to the functionality of the system. This is an auditable report. This new feature enables personnel to access the historical data of any unit within GardaSAFE. Detailed instructions for using the report, along with a brief demo and sample report, are available on the An Garda Síochána internal intranet system. Longer term planning remains high especially around the areas of reports / dashboards, Community Policing, web client and Incident Response App. The deployed system remains in a stabilisation period with continued support from ICT and the external supplier.

Body Worn Cameras (BWC) & Digital Evidence Management System (DEMS):

The (3 station) DMR phase has progressed well with positive feedback from Garda members and good examples of BWCs positively affecting policing outcomes. Implementation on future phases is ahead of schedule and will result in a launch in Limerick (one station) in early August 2024 and followed by Waterford (one station) in early September 2024.

The ability of An Garda Síochána to securely acquire and process digital evidence is a key feature of modern policing. The implementation of the Proof Of Concept (POC) for BWCs and the supporting Digital Evidence Management System (DEMS) is an important milestone for An Garda Síochána towards the implementation of Information-Led Policing. The POC enables us to quickly deploy this new technology now, and ensure the experience and feedback will inform the approach to the design of the national system. By conducting this limited POC is to learn and adapt as required the approach for An Garda Síochána. The POC system was not designed to scale beyond the five stations in scope. The POC will be replaced in time by a full national DEMS and will require underpinning legislation to process BWC, citizen uploaded footage and CCTV and other forms of video evidence at the scale required. The legislation is currently being progressed by the Department of Justice. Once enacted, procurement of the national DEMS and BWC solution will commence, followed by a phased implementation.

Investigation Management System (IMS) Deployment

A number of planned changes to IMS were deployed on 3 July 2024. This release includes, summary offences and indictable offences not requiring a direction from the DPP, will now create only one mandatory IMS job. This change offers significant efficiencies in the management of such offences, while still maintaining high standards of investigation. A review of the changes will be conducted after three months. Another milestone in the national roll-out of IMS was achieved this month, July 2024, when Laois/Offaly Division went live on 31 July 2024.

4. Corporate Communications

Throughout the month of July 2024, the Office of Corporate Communications continued to communicate internally and externally on a broad range of policing activities undertaken by An Garda Síochána.

The Office of Corporate Communication developed and implemented an external communications strategy based on this evolving situation.

Internally the office was also involved in communicating senior leadership messages from the Garda Commissioner to personnel highlighting the brave and commendable work carried out by teams on the ground to bring the situation under control in the face of deplorable verbal and physical abuse. These communications also directed personnel to available welfare support services, should they be required.

Media briefings were conducted by Garda Press Officer Superintendent Liam Geraghty on 3 July 2024 in Castlepollard following three separate fatal road traffic collisions which took place in a 24-hour period in Mullingar, Swinford, and Castlepollard; and again on 29 July 2024 at Garda Headquarters in respect of four separate fatal road traffic collisions which occurred on 27 and 28 July 2024. The Office of Corporate Communications also supported a press briefing with Assistant Commissioner Paula Hilman together with the Road Safety Authority and Minister of State James Lawless on 31 July 2024; promotion of the Garda Reserve Recruitment Campaign.

Furthermore, cars, designer branded items and other quantities of cash were seized by Gardaí during follow-on searches in Dublin on 20 July 2024.

Media Briefing and Associated Communications: Serious Public Disorder Malahide Road, Dublin 17, 15 July 2024

Since earlier today, Gardaí have been responding to serious public order incidents outside a premises on the Malahide Road as well as surrounding areas of Dublin 17.

Over 200 members of An Garda Síochána were deployed to the scene including frontline uniformed Gardaí, supported by a number of Public Order Units and the Garda Air Support Unit. Gardaí remain at the scene tonight.

Throughout today, they have been subject to both verbal and physical abuse - and have had rocks, fireworks and other objects thrown at them. A number of fires were lit and official Garda vehicles seriously damaged.

As the situation intensified, members of An Garda Síochána used force to defend themselves as part of an escalated response to the situation. The use of force included the use of incapacitant spray and deployment of Gardaí in public order helmets and shields.

An Garda Síochána is unaware of any injuries at this time.

15 people have now appeared before a special sitting of the Criminal Courts of Justice in Dublin tonight.

6. Implementation of Cultural Change

Culture Reform Programme

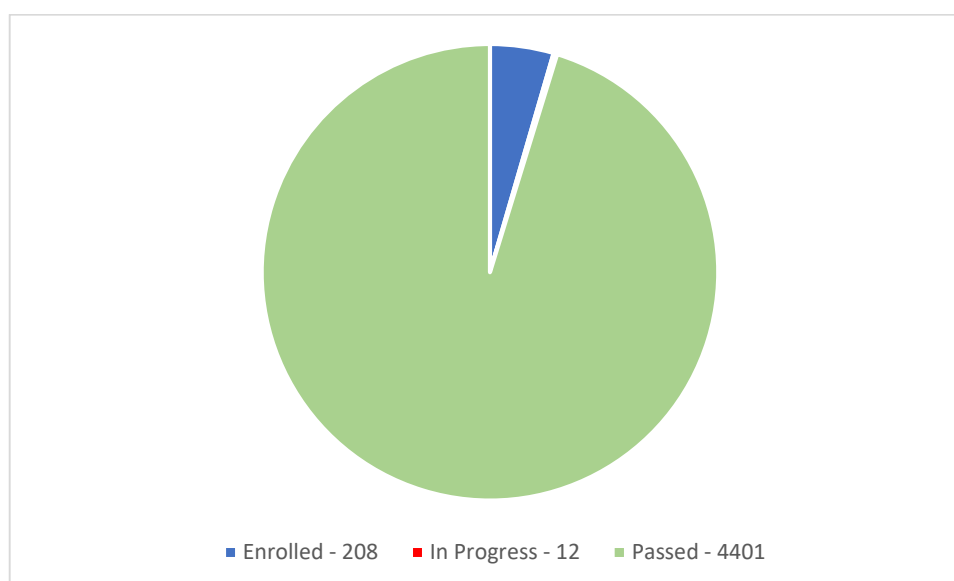

Superintendent Garda Ethics and Culture Bureau (GECB) met with the Head of Internal Communications on Monday 29 July 2024 to progress a Communications Strategy for the Culture Audit Implementation Plan.

Internal Communications will issue an Implementation Plan piece on Newsbeat. This will focus on the Implementation Plan and outline the themes, measures and initiatives identified following the 2022 Culture Audit. It will provide a broad overview of measures taken by the whole organisation to make cultural and ethical improvements. Following this, Internal Communications will include “deep dive” articles in further Newsbeat publications focussing on specific measures related to the Implementation Plan and progression made as a result of the Implementation Plan. These articles will run in Newsbeat from now until the 2025 Culture Audit later in 2024. All information in relation to the progress of the Implementation Plan will also be published on the Garda Ethics and Culture Bureau Portal Page. A link to the page will be published with the Newsbeat Articles.

8. Data Quality and Operational Value of Data

Garda Information Services Centre (GISC) Update

An Garda Síochána signed a revised MOU with the Central Statistics Office (CSO) in Q2 2024 following the lifting of the reservation on the Quality of Recorded Crime Statistics in October 2023. This includes a transfer of responsibility for measuring and reporting on crime data quality from the CSO to An Garda Síochána.

In July 2024, An Garda Síochána published the first such Review of the Quality of PULSE Crime Data for Q2 2023, available at the following link: [AGS Review of the Quality of PULSE Crime Data for Q2 2023 \(garda.ie\)](#). This review was carried out by the Garda Information Services Centre (GISC) with the support of the Garda Síochána Analysis Service (GSAS), and it examines key aspects of data quality, including, *inter alia*, the timeliness of the recording of crime incident records on PULSE, adherence to crime counting rules and the recording of victims in PULSE incidents.

Among the positive findings of the review were:

- 99% of sampled non-crime PULSE incidents that were examined were deemed to have been correctly classified as non-crime incidents.
- 100% of sampled PULSE cases were found to comply with the crime counting rules.
- In the review of the extent to which an injured party had been recorded in incidents, it was found that an injured party was associated with 100% of sampled homicide offences, 99% of sampled physical and sexual assault offences, 99% of sampled Robbery from the Person incidents, and 99% of sampled Theft from Person incidents.

Seven new Call Taker commenced training at GISC in July 2024.

The July 2024 data quality metrics are available at the link below.

Crime Trends

GSAS closely monitors crime trends and disseminates analysis on a regional and divisional basis. This feeds directly into planning operational activities aimed at reducing and preventing crime. Crime incident figures and the associated trends are based on provisional data and are subject to change following review. The CSO publications represent the official crime statistics. These are carried in the CSO's quarterly publications of crime trends and in their annual reports.

9. Policing Challenges

Demonstrations

An Garda Síochána continue to provide a policing response, including traffic management, to a great number of protests nationally. This type of incident can be resource-intensive due to potentially large numbers of people involved. The Israel/Palestine conflict, and Anti-Immigration/Housing of Refugees, continue to be the main causes for protests/demonstrations.

An Garda Síochána are attending fortnightly meetings with IPAS and the Department of Justice regarding the provision of new locations to accommodate international protection applicants. In addition, local Gardaí continue to liaise with communities and the relevant stakeholders in respect of any proposed developments.

An Garda Síochána also continues to assist multi agency operations with the removal of tents and the transportation of international protection applicants to relevant IPAS centres. It is anticipated these operations will continue to take place with a continuous draw on Garda resources.

As of 8 July 2024, the first time registration of Irish residence permissions for applicants residing in counties Cork and Limerick will now be carried out by Immigration Service Delivery (ISD), Department of Justice at the ISD Registration Office, 13-14 Burgh Quay, Dublin 2, with renewal application submitted online by the applicant and processed by ISD. This transfer is the third step by ISD to assume responsibility for the registration of all non-EEA nationals, with approximately 80% of all national registrations and renewals (based on 2023 figures) transferred from An Garda Síochána to the ISD from 8 July 2024. This transfer is part of the ongoing work by the Garda National Immigration Bureau (GNIB) with the Department of Justice to implement the CoFPI recommendation on transferring administrative immigration functions to ISD.

Plans to pilot the system at Listowel Garda Station are well advanced and it is envisaged the system will be up and running in Q3 2024. Secure Qualifiers will allow An Garda Síochána to show in real time the location of exhibits and property and remove the existing anomaly where such items can appear to be 'checked out' to members until they are placed in the PEMS Store. This system will support increased governance and accountability and most importantly support our members by introducing an independent person to the lodgement process, thus reducing the risk of items being unaccounted for.

Wellness Days

During July 2024, Operational Support Services and the Garda National Cyber Crime Bureau ran a number of very successful Wellness Days. These Wellness Days afforded members the opportunity to rebalance and refocus on supports that will benefit their social, mental, and physical wellbeing and to promote healthy and balanced work practices.
